Tri-County Mental Health Services Welcomes New Director of Operations

LEWISTON – Tri-County Mental Health Services has appointed Charles Daly IV to the position of Director of Operations.

In the eight years prior to joining the TCMHS team, Daly was an instrumental leader at Stepping Stones in South Portland. There, his professional focus had been expanding the agencies programs and service offerings across the state. Most notably, his work included managing the expansion of much needed infant mental health programs. The expansion saw a substantial increase in revenue, the addition of over 100 employees, and 4 new facility locations.

“We are fortunate to have Charles join our team during a time of significant transformation in the state of Maine. His understanding of the broader healthcare system will be essential for our operational design and efficiency,” said Catherine Ryder, Executive Director of Tri-County Mental Health Services.

Tri-County Mental Health Services is Maine’s most comprehensive agency dealing with the psychological and social well-being of children, adults, and elders, serving about 10,000 individuals each year. The agency offers innovative programs and services addressing mental health, substance abuse, intellectual disabilities, and more. Its philosophy of building toward recovery and sensitivity to traumatic experiences gives hope to individuals, families, and TCMHS communities. Despite its name, TCMHS reaches far beyond its traditional service area (Androscoggin, Franklin and Oxford) with services in Cumberland and York Counties and beyond.
